Warranty	12 Months Labour, 24 Months Parts

Overview

The Novachill BMF2 is a heavy-duty 1200-litre upright commercial freezer designed for bakeries, commercial kitchens and food production environments. Its stainless-steel construction, adjustable -20°C to -18°C operating range and compatibility with 16" and 18" x 29" bakery trays make it ideal for demanding applications. Electric defrost, operation in ambient temperatures up to 40°C and a standard 10A power connection provide dependable everyday performance.
