

NN-SF57

27L 1000W Flatbed Microwave Oven – Stainless Steel

KEY FEATURES & BENEFITS

FLATBED TECHNOLOGY – Equivalent to 44L Turntable Microwaves cooking area* & Easy to Clean

The Flatbed Technology removes the need for a conventional turntable allowing for greater space inside, providing the flexibility to use rectangular or larger dishes.

This 27L model has a cooking area equivalent to a conventional 44L Microwave. So can you imagine the cost and space saving! This design also makes the microwave easier to clean thanks to the flat surface.

INVERTER TECHNOLOGY – Even and Precise Cooking

Our exclusive Inverter cooking technology provides precise power control, ensuring a consistent cooking temperature for more even and tasty results.

GREAT COOKING PERFORMANCE

In conventional microwaves, the microwave energy is either full on or off in cycles. This can result in cold spots and overcooked edges. Panasonic's Inverter models provide continuous heating at modulated power. This means food is more evenly cooked, preserving texture and flavour, and preventing spill over and burnt edges.

TOTAL BUILT-IN PACKAGE

Built-in trim kit is also available.

*Compared to the Panasonic 44L (380mm diameter) turntable microwave

Pricing Information: RRP: \$399.00

Product Information: **Product Code:** NN-SF57QSQPQ
EAN: 8887549875809
Dimensions (H x W x D): 326 x 529 x 422 mm
Net Weight : 11.7kg
