Square Glass Refrigerated Foodbars

Holds Chilled Food at Serving Temperature | Various Configurations | Matches S Series Hot

The square glass refrigerated food display bars are designed to maintain chilled food at the correct temperature until served. Featuring the same profile as the square glass hot food display bars, they can be used together to complete a modern, uniform display of hot and cold food. The units are designed to take a variety of gastronorm pans up to 65 mm deep. All units combine the use of cold plate and cross fin coil cooling. A set of 1/2 size 65mm deep pans included.

Models with prefix "SFX" are piped and foamed for remote refrigeration supply.

Models with prefix "SRX" are supplied with a refrigeration unit seated in a cage to the underside of display.

Refer to Food Bar and Bain Marie Accessories Specification Sheet for optional accessories.

FEATURES

- Stainless steel construction with tubular frame
- Refrigerated cold plate and cross fin coil technology
- SRX models feature a quality refrigeration unit running on environmentally friendly R404A refrigerant
- Overheat LED light
- Double skin construction
- Quiet operation
- Safety lock ball valve drain
- Toughened safety glass
- Streamlined for easy cleaning
- Adjustable digital thermostat with temperature readout
- Removable cross bars
- Rear roller doors fitted as standard

SRX25RD
