thermoplan
Swiss Quality Coffee Equipment

Thermoplan is a globally recognised Swiss manufacturer of fully automatic professional coffee machines, trusted by cafés, restaurants, hospitality venues and businesses around the world. Designed and manufactured in Weggis, Switzerland, Thermoplan machines embody precision engineering, reliability and uncompromising Swiss quality.

As a family-owned company, Thermoplan brings together decades of innovation with a deep commitment to craftsmanship. Every machine is produced in Switzerland using predominantly locally sourced components, ensuring consistent performance, durability and exceptional coffee quality. The “Made in Switzerland” label is more than a standard – it reflects Thermoplan’s pride in Swiss manufacturing and attention to detail.

With products supplied to customers in over 80 countries, Thermoplan is supported by an extensive global network of certified sales and service partners, providing expert support and long-term peace of mind. In Australia, Thermoplan delivers world-class coffee solutions designed for high-performance commercial environments, backed by reliable service and ongoing support.

From boutique cafés to large-scale hospitality and corporate settings, Thermoplan machines are engineered to perform – delivering consistency, efficiency and premium coffee experiences, cup after cup.

THE MULTI-TALENT

This is where coffee excellence meets innovative milk foam technology paired with top performance. The Black&White4, our multi-talent, is a masterpiece for demanding customers and adapts to all needs. In locations where a lot of coffee is consumed every day, it finds its perfect home. Produced at our site in Weggis, the Black&White4 convinces worldwide-cup after cup after cup.

THE COMPACT ALL-ROUNDER

Maximum performance on a minimum footprint? The Black&White4 compact combines excellent coffee, perfect milk foam and simple modularity. Thanks to its slim housing and innovative design, this fully automatic coffee machine finds a place on even the smallest counter and still adapts to customer needs. Our compact all-rounder, produced by us in Weggis, is at home all over the world.
