MULTIPLE CAPACITIES IN ONE MACHINE

Bowls and tools for production at half volume are available for AR60.

DIGITAL TIMER operation time can be controlled or monitored via a digital timer. The machine stops at 00:00

MEAT MINCER AND VEGETABLE CUTTER Models from AR30 to AR80 can be ordered with an attachment drive, to expand the mixer's potential applications.

PLASTIC OR STAINLESS STEEL SAFETY GUARD

The AR series comes with a CE-approved safety guard made of plastic, to prevent flour dust and stains. It's filling chute can be used during operation. It is also available with a removable plastic guard, or a fixed or detachable stainless steel guard.

AUTOMATIC FIXATION The bowl is wheeled into place between the two bowl arms. Using the handle – or automatically by pressing a button – the bowl is raised, centered and locked in place in a single movement.

EASY BOWL HANDLING Choose between bowl trolley for transport or an electric bowl lift, which handles transport to and from the machine. This also ensures good ergonomics during filling and emptying. Choose between several models.

WHITE OR STAINLESS STEEL

An easy-to-clean design. The AR series is powder coated as standard and can be upgraded to a completely stainless steel frame.

STRONG AND EFFECTIVE The powerful motors have the capacity to handle large quantities of heavy ingredients.

VARIABLE SPEED CONTROL The speed is variably controlled by a very rugged system of belts, rather than gears. This solution means that the mixer does not contain oil, thus avoiding the risk of oil spilling into the bowl.

PIZZA SPECIAL AR40 and AR60 are available in a special pizza version with an extra powerful motor that can easily handle 32 and 46 kg pizza dough, respectively, with 50 per cent dry matter.
