# Buffet Solutions

**From around the globe  
come these quality **Yellow  
Brand Induction** Units for the  
performance conscious.**

With unrivalled reliability, high performance and a range to suit all buffet requirements, you can be confident that your needs and those of your customers are met.

Choose from the complete range of Drop In units from 1Kw for warming and holding, to the powerful 5Kw model that caters for the most demanding of cooking tasks. Best of all, these individual Drop In units have the same dimensions for uniform appearance in your buffet.

The Multi-Zone Cooking range offers unique capabilities combined with a smooth quality top and easy to use remote controls.

*Choose the power level to best suit your needs with these three models, all with the same cutout dimensions.*

### **Y1000NT**

The 1000W Y1000NT model is ideal for food that only requires a holding temperature, and hence offers practicality and economy of use.

### **Y2000D**

The 2000W Y2000D model provides more versatility by enabling cooking power as well.

### **Y2500AD**

For robust cooking power, this unit is the answer for high demand, fast performance cooking needs in the busiest environment. Complete with easy to use remote control.

### **Y1000WCS - Table Top**

The elegant answer for those times when extra capacity is required or the flexibility to move from one location to another for those special functions. Sporting a luxury chrome finish to the stylish legs and support, with easy to use touch controls, this unit will fit into any contemporary situation and perform perfectly when warming and holding is required, complete with chafing dish locator.

### **YMC-2-2500 & YMC-3-2500 MULTI ZONE**

The ultimate answer for any buffet requirement - the Yellow Multi-Zone Series - available in two or three zone versions. Unlike lesser units, these models enable even small containers to be used simultaneously with large pans etc., to maximize efficient use of the heating area. Imagine the benefits of having a range that can offer so much flexibility and still look fabulous dropped-in flush to your benchtops. Each zone offers 2500W of power that can be easily adjusted for holding use via the individual remote controls for each zone. Remote generators provide flexibility and ease of installation.

# Built In Cooking

## Y3500DDSS

Your chef will thank you for the power and flexibility of this Dual 3500W Built In unit. With quality finish to the stainless surround, and integral generator, this model offers real cooking power in an easy to install unit with electronic remote control.

## Y5000DSS

Maximum power and performance set this unit apart. Unrivalled productivity for the busiest kitchens, and welcomed for its quality looks as well. Rugged construction and ease of use make this model welcome in kitchens and buffets where high productivity counts.

## Y3500DWSS

A perfect solution for Wok cooking - this model provides high power of 3500W with curved top mounted inside a sturdy stainless frame for easy installation. Complete with easy to use electronic remote, this unit answers the need for almost instant high power heat demanded by this style of cooking.

# Table Top Cooking

## **Y2500TT**

The practical answer to portable cooking at its induction best!

This model provides portable power anywhere you need at the touch of a button and twist of the dial. Easy to use and easy on the eye too, with 2500W of cooking power available instantly.

Self contained and easily positioned anywhere, in conference rooms, buffets, kitchens - anywhere you need fast cooking power.

## **Y3500TT**

For more serious cooking power, the 3500W of this quality unit provides the rapid response required in high demand environments. Easily moved, with simple controls and quality construction, your staff and customers will appreciate the versatility of this unit.

## **Y3500TTW**

With class-leading power output, table-top Wok cooking is now possible anywhere it's needed with this remarkable table top unit.

Almost instant heat in a quality stainless steel self-contained unit with easy to use electronic controls. Now you can have great wok cooking just where it's needed.
