## Installation Requirements

1. Installation and connection of your Zip HydroChill must be carried out by a qualified person, observing national and local regulations.
2. You will require suitable mains electrical and drinking water connections, plus waste water drainage all within 1.5 metres of

the product.

3. HydroChill products are air-cooled so discrete cabinetry cut-outs are required for ventilation.

4. Installation on most bench tops is straightforward however some stone bench tops may require a specialised cutting service.

5. Installation by Zip Professional Service can be arranged with a phone call or through [www.zipwater.com](http://www.zipwater.com)
