ENGINEERED INDUSTRIAL SYSTEMS

Burt Process Equipment incorporates the latest technology in the fabrication of thermoplastic, steel, and stainless steel products. From standard pre-engineered systems to custom skids and fabrications, Burt Process Equipment takes pride in supplying the highest quality and value in the products we manufacture.

pH NEUTRALIZATION SYSTEMS

- Prepackaged pH Plus Series and Custom Systems
- Continuous Flow or Batch Treatment Configurations
- Flowrates up to 300 gpm and pH range from 1-14
- PLC/HMI Controls

ChemPLUS CHEMICAL FEED SYSTEM

- Prepackaged and Custom Systems
- Simplex, Duplex, Triplex or Custom Designs
- Rugged Acid, Caustic and Solvent Resistant Construction
- 1/2" HDPE Containment, Wall or Floor Mountable

PolymerPLUS ADVANCED ACTIVATION SYSTEM

- Dry Polymer and Liquid Activation Systems
- Single and Dual Activation Systems
- Polymer Plus Feed Capacities Range 0.1 to 576 GPD
- Motorless High-energy Activation Chamber

PurEx RODI HIGH PURITY WATER GENERATION

- Reverse Osmosis and Ion Exchange
- High Purity Distribution Systems and Components
- Pretreatment Skid Packages, Water Softener and Carbon Treatment
- Water Quality Monitors and Integrated Control Systems

RainEx RAINWATER RECOVERY

- Rainwater Reclamation For Any Application
- Ultraviolet or Chemical Sanitization
- Treatment Options for 1,000-50,000 Gallon Storage
- On-board Filtration with Replaceable Media or Optional Automatic Cleaning

CUSTOM TANKS AND FABRICATION

- Polypropylene / Polyethylene / PVC / CPVC / PVDF / Stainless / Carbon
- Rectangular, Cylindrical or Custom Configurations
- Single and Double Walled (secondary containment) Styles
- Customized Fittings / Stands / Covers / Casters / Partitions

Contact our professional staff for assistance in selecting the proper equipment for all of your fluid handling needs.
