BURT Water Walk

Sponsorship Opportunities

Saturday, October 10th, 2026

Whitney Water Center | 945 Whitney Ave. Hamden, CT

2026

Event History

Burt Process Equipment's Water Walk initiative is an extension of the company's long-standing commitment to clean water, community engagement, and global philanthropy. Founded on family values, engineering expertise, and a dedication to water technology, Burt Process has aligned its corporate goals with the United Nations Sustainable Development Goal #6: Clean Water and Sanitation.

Through partnerships with customers, suppliers, and nonprofit organizations, the company works to raise awareness of the global water crisis and support efforts that provide safe, sustainable water solutions to communities in need.

The initiative supports organizations such as Water Mission and other global partners dedicated to delivering engineered water solutions, sanitation infrastructure, and disaster relief assistance that directly support clean water projects around the world.

Burt Process began participating in Walk for Water events in 2019, including Water Mission's annual walk in Charleston, SC. Later that year, Burt Process hosted its first annual Connecticut Water Walk, raising \$10,000 for Water Mission.

burtprocess.com/water-walk

Since its inception, Burt Process Water Walk partner-supported events and walks have contributed \$160,000+ for clean water projects, for clean water initiatives, providing life-changing access to safe water for thousands of people around the world.

The Water Walk continues to bring together employees, customers, suppliers, and community members in support of Burt Process's mission to improve lives through clean water access.

All sponsor levels include recognition on event social media, website, sponsor banner, branded shirts, photos and video.

SCAN TO SPONSOR

Organizations interested in enhanced visibility and community impact are encouraged to inquire about additional sponsorship opportunities.

Why Sponsor

Make an impact to End the Global Water Crisis.

2 Billion People - lack access to safe water globally

Every 37 Seconds - one person dies from waterborne illness

443 Million School days - students miss each year due to the global water crisis

200 Million Hours - women spend walking for water
