

CHEMFLO® 9

2" x 1" End Suction Centrifugal Pump

Made with high quality investment cast 316 stainless steel components, the ChemFlo® series of pumps are designed to be applied in a wide range of pumping applications where stainless steel is required.

The ChemFlo® 9 pumps utilize an enclosed impeller designed for achieving higher heads and efficiencies than a standard semi-open impeller. Multiple impeller trims allow the ChemFlo® 9 to meet most duty points up to 270 GPM and total head up to 460 feet. Several mechanical seal options are available in addition to the standard type 2100 carbon / ceramic / Viton mechanical seal.

ChemFlo® 9 pumps are offered in two configurations, pump (with motor) and PumPAK® (without motor) versions. Motors available are 184TC, 215TC, 256TC, 286TSC, and 324TS. If ordering a PumPAK® please note that the electric motor must have a base.
