

T-DLC Series

PRODUCT DATA SHEET

Temperature Controls

Single Set-Point, Precise Control

Large (.50" high), easy to read LED display

Vapor tight , IP21, front panel prtction

±1% full span, single digit accuracy

Single phase only.

Adjustable temperature range from -58°F(-50°C) to 302°F(150°C)

CE compliant

DLC SERIES, DIGITAL THERMOSTATS

ISO 9001:2015
WITH DESIGN CERTIFIED

Features & Values

- Large (.50" high), easy to read LED display. Provides precise control for consistent plating and etch rates in most aqueous processes.
- Fluoropolymer (FEP) covered 10-foot (3m), thermistor included standard with the control. Provides extended service in corrosive liquids and can be lengthened with ordinary copper hookup wire
- Vapor tight, IP64, front panel protection, plastic enclosure with sealed tactile switches (stand alone)
- Single pole, double throw switch rated at 16-amperes for either 120 or 240 volts. *12 amp full load max if operating a heater with a thermal protector.
- 14°F(-10°C) to 158°F(70°C) ambient temperature range
- ± 1% full span, single digit accuracy
- Single phase only

Specifications

Temperature Range Adjustable temperature range from -58°F(-50°C) to 302°F(150°C).

Options

- Celsius readout (must specify).
- 25-foot (97.6m) and 50-foot (15.2m) thermistors
- Combination controls available for three phase service and larger heater loads
- Direct acting output for cooling applications.
- Adaptor panels for control retrofits
- *V option - 6 inch (152.4mm) x 3 inch (76.2mm) enclosure

Safety Features

- Non-volatile memory
- Sensor short and break protection
- Security code restricted menu

Certifications

CE compliant
