## ACCESS RESTRICTIONS

Limit access to products, categories or even your entire website to only certain subsets of your customers. Customize your catalog to show each customer exactly what you'd like them to see.

## REQUEST A QUOTE

Allow prospective customers to check what their pricing would be without revealing information to your competitors. Help existing customers spec out orders before they make purchases.

## CUSTOMER GROUPS

Assign each of your customers to a group, with the ability to set shipping, payments and other key settings for each group type based on what they should see.

## ADVANCED QUICK ORDER

Many B2B buyers already know what they want. Make it easy to enter SKUs and checkout with a powerful and flexible quick order system.

## FLEXIBLE PRICING RULES

Set product pricing, quantity rules and tier discounts, differentiated by customer group. Determine which customer groups get free shipping, and at what level.

## ROBUST ANALYTICS

See which customers are active and driving the most sales. Analyze shipping patterns, marketing efforts and more to see what's helping or hurting your business. Make informed decisions.

## WHO WE ARE:

Headquartered in New York City, we are a passionate team focused on building an eCommerce Platform centered around B2B Commerce with a beautiful B2C experience.

Working with hundreds of B2B Businesses, we have shaped the platform with flexible and extensible features that let you create unique experiences for your customers.

## WHAT WE DO:
