

PEYTON WEBSTER Care & Cleaning Guide

HOW TO CARE FOR YOUR NEW CARPET & RUG

Woven & Tufted Wools

Maintaining your quality purchase will repay you by keeping its beauty for many years.

- Vacuum regularly. Frequent vacuuming is a carpet's best friend. A suction only canister vacuum is best to prevent excess pilling, fuzzing and pulls. However, if this type is not available, set vacuum so that the brush is furthest away from the surface of the carpet. The vacuum cleaner dust bag should be changed when half full.
- Remove spills immediately.
- Professionally clean as needed.
- Do not apply stain repellent treatments that contain silicone because they tend to accelerate carpet soiling.
- Professionally clean as needed, every 6 months to 1 year. Call 1-800-428-3270 to schedule a preferred vendor.
- Bonus Tip: Filters in your heating and air conditioning systems should be changed regularly.

Steps for Spot Removal

- One of the most crucial areas of carpet maintenance is removal of spots and spills. Acting quickly when anything is spilled or dropped, and always having the necessary cleaning materials at hand are of the utmost importance.
- Scoop up solids.
- Immediately blot (do not rub) spills with white paper towels or with a clean absorbent cloth.
- Cleaning agents and solvents should be Ph neutral; pre-test should be done in a hidden area.
- Apply the cleaning agent listed on the spot removal chart (below) to an absorbent towel and begin to blot up the spill with a blotting motion. Flip cloth to prevent reapplying soil.
- Do not over saturate with water.
- Work inwards from the edge of the spot to prevent excess spreading.
- Wait a few minutes for the cleaning agent to work on the spot. Follow recommended directions.
- Once the cleaning agent has removed the spot, blot excessive moisture by applying pressure with paper towels or a dry absorbent cloth.
- Rinse with clear water on a clean cloth.
- Remove excess moisture by applying pressure with paper towels.

Recommended Professional Cleaning

- Call us at 1-800-428-3270 to schedule a professional cleaning with a recommended and trusted provider.
- Also recommended are dry cleaning systems such as Capture®; Host®; Dri-Mate®; Wool Clean by Wools of New Zealand and Chem-Dry.
- Truck-Mounted steam extraction is acceptable for tackless wall to wall installations.
- We do not recommend steam cleaning for loose lay rugs.
- We do not recommend any portable units; nor any Bonnet systems or Rug Doctor systems.
