

WT-Display

REMOTE DISPLAY

Display with bi-color LEDs and integrated bargraph for clear viewing even in challenging environments

WT-Display

REMOTE DISPLAY

WeightechUSA's remote display is a versatile solution, designed to cater to diverse needs such as truck scales and batch plants. Its ability to showcase up to 10 characters, coupled with the built-in dynamic bar graph, provides a comprehensive visualization of weight, even over long distances, for use at traffic lights and signs.

The device's seamless compatibility with all WeightechUSA products underscores its adaptability within a broader ecosystem. With the convenience of 1 built-in RS232 or RS485 standard, data transmission is made efficient and hassle-free. Encased in painted carbon steel, the remote display boasts durability and resilience, further enhanced by its protection class IP65, rendering it resistant to dust and water. Operating within a wide range of 100-240Vac Electric Power, 50/60Hz, the device ensures consistent performance across various power inputs. Additionally, the integration of a waterproof relief valve serves to extend its lifespan, underscoring the device's commitment to long-term reliability and functionality in demanding operational environments.

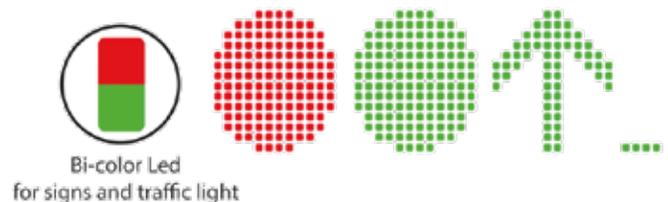

FEATURES

- Bi-color led for signs and traffic lights
- Up to 10 characters and built-in dynamic bar graph
- Compatible with all WeightechUSA products
- 1 built-in RS232 or RS485 standard
- Painted carbon steel
- Protection degree IP65
- 100-240Vac Electric Power, 50/60Hz
- Equipped with waterproof relief valve for longer lifespan.

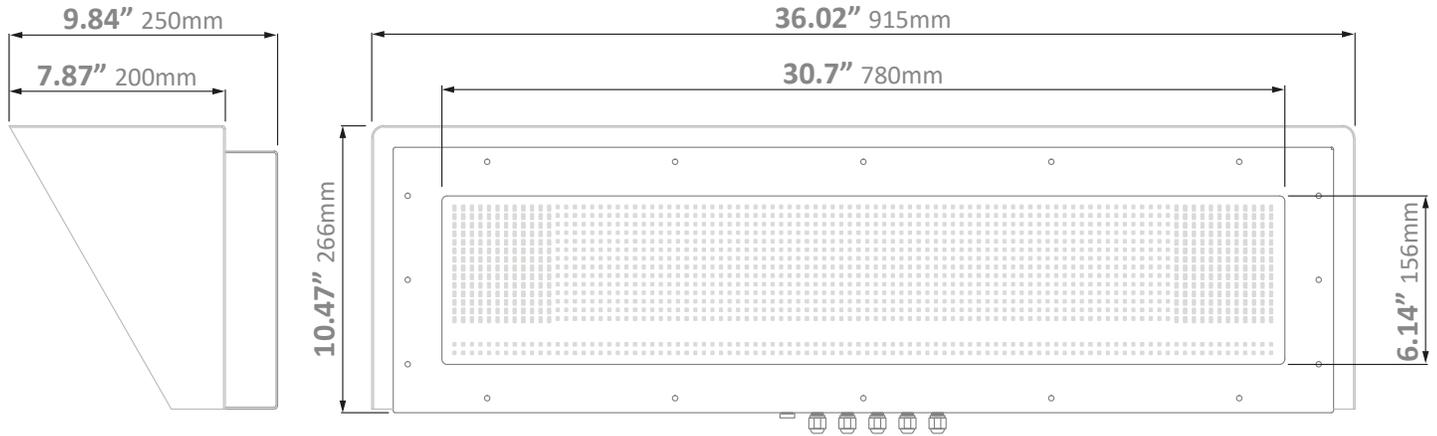

APPLICATIONS

- Truck scales
- Outdoor weighings
- Industrial patios.

DIMENSIONS

TECHNICAL DATA

Voltage range	100-240Vac
Current Consumption	2A/115Vca 1.2A/230Vca
Operating Temperature	-25 to +70°C (-13 to +150°F)
Protection Degree	IP65
Housing Material	Painted carbon Steel
Weight	14 kg (31 lb)
Fixing	6xM6 weld studs on backside of the equipment
Parametrization	Remote commands sent by serial

PART NUMBER

Products	Part#
WT-Display White	20123
