

WT27R-Digital

WEIGHING INDICATOR

Innovation in the WT27 family
Agile interface and 7" graphic display

WT27R-Digital

WEIGHING INDICATOR

10.000 – division weighing indicator suitable for road applications.

Indicator and weighing manager
for up to 16 digital or analog load cells

Stores more than
30,000 complete records
of weighings carried out

Various reporting
options

Supplied with
mini-USB keyboard – PC standard

Real-time
internal clock

Registration of up to
1600 customers and
1600 products

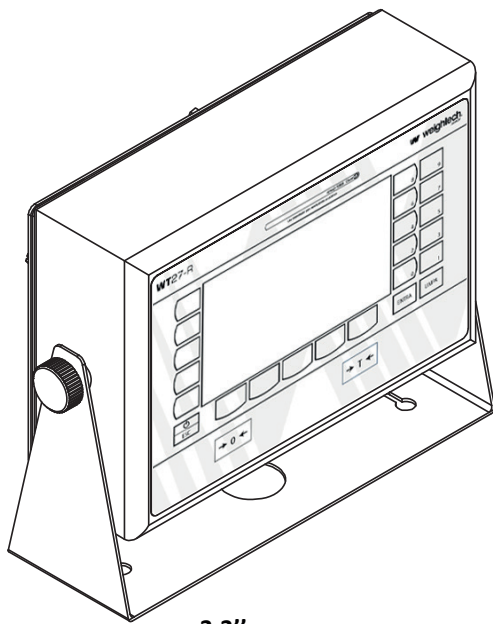

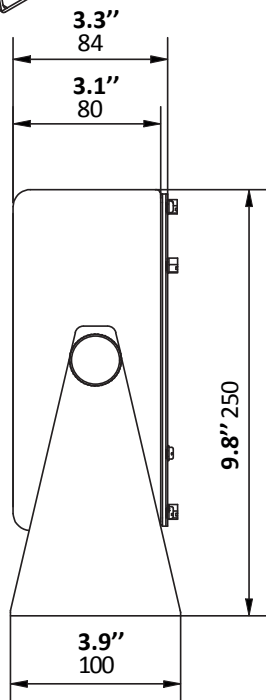

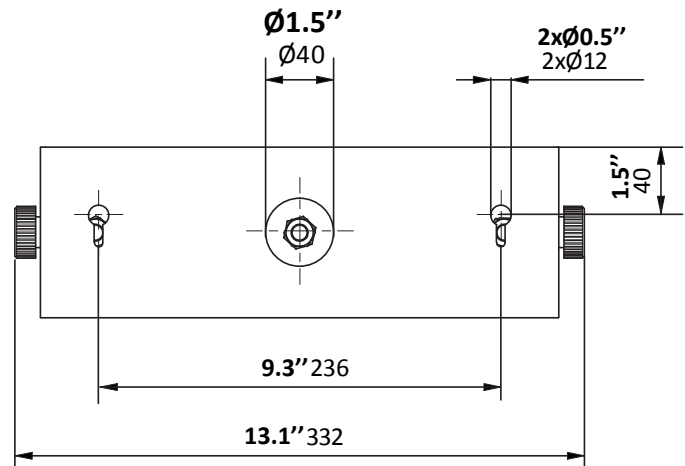

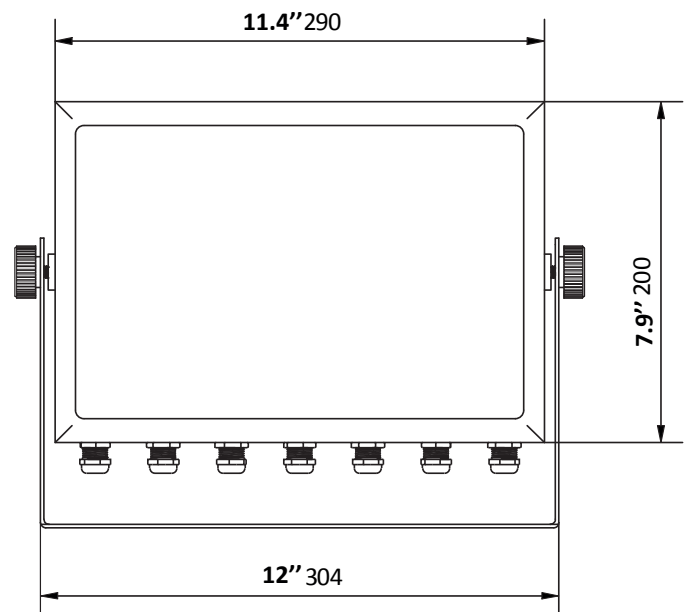

Communication with
EPSON LX350 and
Bematech MP-20 printers

Serial port for communication
with the Remote Display

DIMENSIONS

TECHNICAL DATA

Hardware	Voltage range: 85 ~ 245 VAC		
	Approximate power consumption: 10W		
	Front panel protection rating: IP65		
	Encapsulation material: Stainless steel		
Interface	7" RGB 800x480 pixel TFT graphic display		
	Front panel with 25 keys, including quick navigation keys		
	QWERTY-type PC/AT auxiliary keyboard (mini DIN PS/2 standard, USB connector) + quick navigation keys (F1 to F12)		
	Serial output for Epson LX350 or Bematech MP-20 printers		
	Current loop output for communication with DR-WT75, DR-WT125 or DR-WT200 Remote Displays		
	RS232 or RS485 two-wire serial output for communication with PC and other devices		
Road Operations	Ethernet communication (optional)		
	Allows single weighing		
	Stores more than 30,000 complete weighing records		
	Store up to 1600 customers and 1600 pre-registered products		
	Store with up to 40 pre-registered tares, with manual tare possibility		
	Up to 14 types of discounts (correction factor)		
	Configurable weighing ticket printing		
	Various reporting options		
	Up to 16 digital or 16 analog load cells		
	Details of the Road System	Weighing data that can be printed	Weighing code (automatic sequential)
