

TekTone AM100

Blank Add-on Panel

Description

The TekTone AM100 Blank Add-on Panel is a modular blank panel designed for use with the DS100 Door Sentry & Emergency Alarm System. It is used to fill unused panel openings within the DS100 annunciator frame or to provide space for mounting specialized equipment. The panel matches the appearance and dimensions of other AM100-series modules for a uniform installation.

Features

- Blank modular panel for unused openings
- Modular design compatible with AM100-series panel layouts
- Heavy-duty extruded anodized aluminum construction
- Simple installation
- Easily removable and accessible
- Matches the appearance of other DS100 system modules

Applications

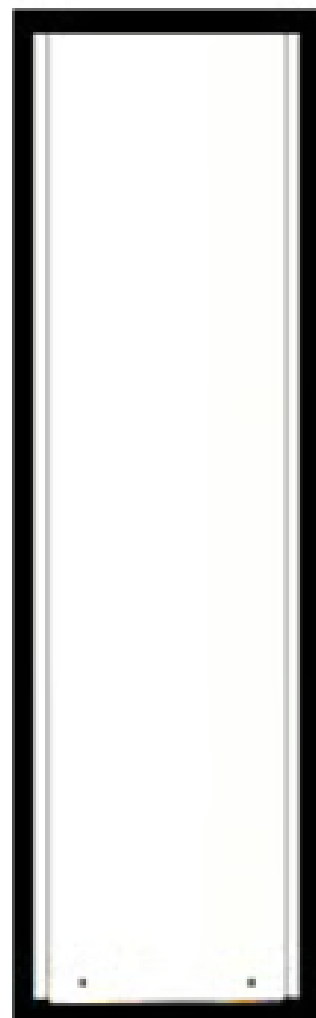

- Filling unused spaces in DS100 annunciator panel assemblies
- Maintaining a finished appearance for modular annunciator systems
- Mounting specialized or custom equipment within compatible panel frames
- Door Sentry & Emergency Alarm System installations requiring future expansion capability

Compatible Systems

- DS100 Door Sentry & Emergency Alarm System
- OF200-series Frame
- OH200-series Flush Housing
- OH300-series Surface Housing
- IH300-series Desk Housing

Technical Specifications
