

TekTone® AM110/24

Add-On Panel with 24 Lights and Test Button

Description

The AM110/24 Add-On Panel is a modular expansion panel for the Tek-CARE® NC110 Audible-Visual Nurse Call System. It provides 24 annunciator indicator lights and an integrated lamp test button, allowing the NC110 master annunciator to be expanded to monitor additional remote stations. Each NC110 master station can be configured with one NC110 master panel and up to five AM110-series add-on panels, supporting systems with 4 to 212 remote stations.

Features

- 24 annunciator indicator lights
- Integrated lamp test button
- Modular design for flexible system expansion
- Removable lamp lenses for easy room identification
- Protected panel markings
- Integrated circuit technology for reliable operation
- Expands NC110 system capacity up to 212 remote stations when used with additional AM110-series panels

Applications

The AM110/24 is designed to expand the Tek-CARE® NC110 Audible-Visual Nurse Call System in healthcare facilities, including:

- Hospitals
- Skilled nursing facilities
- Assisted living facilities
- Rehabilitation centers
- Long-term care facilities

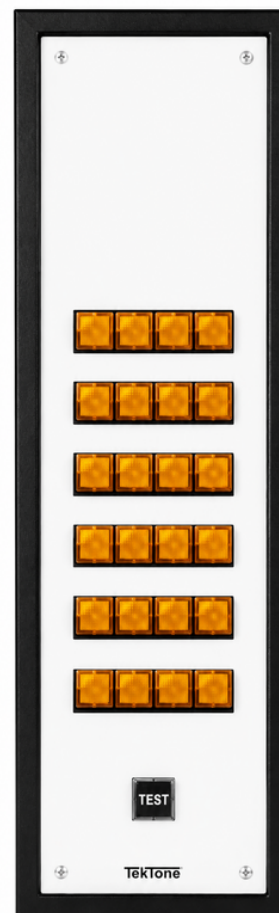

It is installed as an annunciator expansion panel to increase the number of monitored patient and emergency call stations. The NC110 master panels may also be used as remote annunciators for the NC150 Nurse Call System.

Compatible Systems

The AM110/24 is compatible with:

- Tek-CARE® NC110 Audible-Visual Nurse Call System
- NC110-series Master Annunciator Panels
- OH200-series Flush Housings
- OF200-series Frames
- IH151NK Power & Control Kit
- SF-series Call Stations

The NC110-series Master Panels may also be used as remote annunciators for the NC150 Nurse Call System.
