

TekTone LS610/1

Reporting for 100 Devices

Description

The LS610/1 is a Tek-CARE[®] Reporting software license that enables reporting for up to 100 devices (points) on the Tek-CARE Appliance Server (NC475). It records all system activity and generates customizable reports for management review, performance analysis, and historical event tracking. Reports can be viewed from any computer connected to the Tek-CARE network through a standard web browser.

Features

- Reporting license for 100 devices (points).
- Records all activity on the Tek-CARE Appliance Server (NC475).
- Generates customizable historical reports for management review.
- Reports are accessible through a standard web browser on any networked computer.
- Reports can be:
 - Printed
 - Saved as HTML
- Exported as CSV for use with spreadsheet applications such as Microsoft Excel.
- Can automatically email reports when used with LS453 Email Output software.

Applications

- Hospitals
- Skilled nursing facilities
- Assisted living facilities
- Memory care communities
- Long-term care facilities
- Healthcare facilities requiring historical event reporting, response-time analysis, and management reporting for Tek-CARE nurse call and alert systems.

Compatible Systems

- Tek-CARE[®]120 Nurse Call System
- Tek-CARE[®]160 Nurse Call System
- Tek-CARE[®]300 III Nurse Call System
- Tek-CARE[®]400 GEN3 Nurse Call System
- Tek-CARE[®]500 Wireless Nurse Call System
- Tek-CARE[®]700 Wander Management System
- Tek-ALERT[®] Alert Integration Manager
- Requires the NC475 Tek-CARE[®] Appliance Server (Central Equipment).

TekTone LS610/1
Reporting for 100 Devices
