

TekTone LS621/100

Tek-CARE® Staff App, Non-Voice (100 Seats)

Description

The LS621/100 is a 100-seat, non-voice software license for the Tek-CARE® Staff App. It enables one iOS or Android mobile device to function as a portable staff station, allowing caregivers to receive nurse call notifications, view resident information, send and receive text messages, and create staff requests over the facility's Wi-Fi network. The app improves staff awareness, workflow efficiency, and nurse call response time.

Features

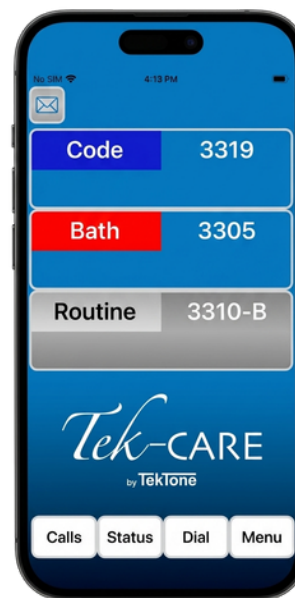

- Supports 100 non-voice Staff App licenses.
- Displays nurse call notifications on compatible mobile devices.
- Calls can be filtered and assigned by zone.
- View resident/patient information.
- Send and receive text messages.
- Configurable notification using tone, vibration, or flash.
- Call tone automatically sounds for the highest-priority call.
- Improves staff awareness, workflow efficiency, and response times.
- Supports up to 255 concurrent Staff App licenses per Tek-CARE system.

Applications

- Hospitals
- Skilled nursing facilities
- Assisted living facilities
- Memory care communities
- Long-term care facilities
- Any healthcare facility using a Tek-CARE nurse call system requiring mobile caregiver notification.

Compatible Systems

- Tek-CARE®3000 Nurse Call System
- Tek-CARE®400 GEN3 Nurse Call System
- Tek-CARE®500 Wireless Nurse Call System
- Tek-CARE®570 Wireless Nurse Call System
- Systems utilizing NC475 Tek-CARE® Central Equipment with the LS620 App Server.
