

TekTone LS631/1

Tek-CARE® Staff App, Voice (1 User)

Description

The LS631/1 is a single-user, voice-enabled software license for the Tek-CARE® Staff App. It enables one iOS or Android mobile device to function as a portable staff station with two-way voice communication, allowing caregivers to receive nurse call notifications, answer calls directly from the mobile device, communicate with patients/residents, view resident information, send and receive text messages, and create staff requests over the facility's Wi-Fi network.

Features

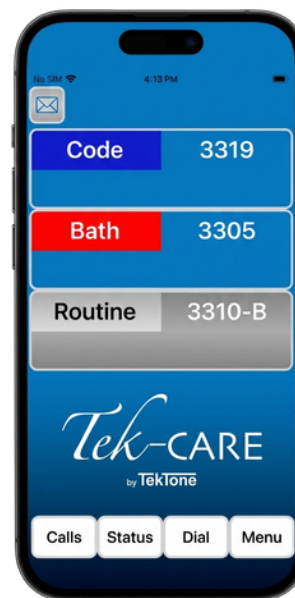

- Supports one (1) voice-enabled Staff App user.
- App-to-station and app-to-master two-way audio support.
- Receive nurse call notifications on compatible mobile devices.
- Calls can be filtered and assigned by zone.
- View resident/patient information.
- Send and receive text messages.
- Create staff requests from the mobile device.
- Configurable notifications using tone, vibration, or flash.
- Highest-priority call automatically generates an audible alert.
- Improves staff awareness, workflow efficiency, and nurse call response times.

Applications

- Hospitals
- Skilled nursing facilities
- Assisted living facilities
- Memory care communities
- Long-term care facilities
- Healthcare facilities requiring mobile nurse call notification with two-way voice communication between caregivers and patients/residents.

Compatible Systems

- Tek-CARE®120 Nurse Call System
- Tek-CARE®3000 Nurse Call System
- Tek-CARE®400 GEN3 Nurse Call System
- Tek-CARE®500 Wireless Nurse Call System
- Tek-CARE®570 Wireless Nurse Call System
- Systems utilizing the NC475 Tek-CARE® Central Equipment and LS630 Voice App Server.
