

TekTone OH201

Flush Housing, 1 Gang (1 Panel Wide)

Description

The TekTone OH201 is a flush-mount housing designed to accommodate a single panel / one-panel-wide TekTone assembly. It is part of the OH200-series flush housings and is used with compatible TekTone panels and OF200-series flush-mount frames.

Features

- Flush-mount housing
- 1 panel wide / 1 gang
- Designed for installation within a wall
- Compatible with OF201 flush-mount frame
- Part of the modular OH200-series housing family
- 3-7/8" housing depth

Applications

- Flush-mount installation of TekTone nurse-call master/annunciator panels
- Flush-mount installation of TekTone emergency-call annunciator panels
- Suitable for applications using compatible OH200-series panels and OF200-series frames.

Compatible Systems

- Tek-CARE® NC110 Nurse Call System
- Tek-CARE® NC150 Nurse Call System
- CM800 Emergency Call System
- DS100 Door Monitoring & Emergency Alarm System
