

Model: NCSTAFF Staff Station

NCSTAFF

Features

- Over 20 call-in priorities available
- 4 levels of service requirements
- Pushbutton call for two-way intercom
- Monitor LED and call-assurance LED with cancel touchpoint
- Continuous supervision for station and associated sub-station loss of data and/or power faults
- Electrostatic discharge protected
- RJ connectors for easy service

Specifications

Power Requirements: 14V DC @ 0.135A

Weight: 1 lb. (0.45 kg)

Size: H: 4½" (11.4 cm)
W: 6½" (16.5 cm)
D: 2" (5.1 cm)

Housing and Finish: High-impact molded ABS94VO; light gray faceplate and insert

Controls: 1 call-in pushbutton, 1 cancel touchpoint, 1 monitor LED indicator, 1 call-assurance LED indicator

Terminations: RJ plug-on connectors

Backbox Requirements: Raco 697, Steel City GW-335C, Steel City H3BD-3/4 with 3GC plaster ring, or UL recognized equivalent

Certification: UL/C-UL 1069

Description

The NCSTAFF Staff Station is typically located in a room or area where staff members may be working. The station may also be used in patient areas such as day rooms or visitor's lounges; wherever call-in and two-way audio communication is desired. The staff or patients communicate through the station's built-in speaker/microphone.

The Staff Station is connected to a local NCGCM's J-Bus and is continually supervised for both power and data. The Staff Station also locally supervises up to nine associated Sub-Stations (Single/Dual Pushbutton, Code Blue, Pull-Cord, Staff Register, Fire/Auxiliary Module) for power/data and reports any problems to the associated NCGCM.

Associated Equipment

NCGCM — Group Control Module
NCPWR — Floor Power Supply
NCBSPLIT2 — 1 to 2 Control Station Splitter
NCSSPLIT4 — 1 to 4 Sub-Station Splitter
NCCLT2, NCCLF4, NCCLS6 — Corridor Lamps
NCJDROP — J-Bus Interface
NCJSOLO — Shrink Wrapped J-Bus Interface
NCPCS1 — Pull-Cord Station
NCSPB1 — Single Pushbutton Station
NCDPB2 — Dual Pushbutton Station
NCBACB — Code Blue Station
NCSRS3 — Staff Register Station
NCFAM — Fire/Auxiliary Module
