

Secure the R4KCSC bracket to the station base

- Attach the R4KCSC metal bracket to the backside of the station base.

Twist these metal tabs to secure the bracket to the station base.

Step 1 Attach the bracket to the base

Screw the bracket/base to the wall.

Connect the Station

- Plug the station connector to the station and snap it to the base.

Step 2 Attach the station to the base

Attach the cover

- Snap the cover to the swivel supports on the bracket.
- Open and close the cover a few times to make sure it drops freely to the resting position.

Swivel supports

Step 3 Attach the cover (shown in the resting position)
