T: 0.6" (1.54 cm)

**Housing and Finish:** Shrink-wrapped module

**Terminations:** Three (3) 8 pin SL plug-on connectors

**Certification:** Designed for compliance to ANSI/UL 1069, IEC 60950, CE, RoHS / WEEE Compliant. Assembled in a U.S. FDA Registered facility.

### DESCRIPTION

The R5K R4KKBS is a shrink-wrapped module that allows for a K-bus run on the Responder 5000 to be split for areas such as hallway intersections or corner areas. The R4KKBS is used when there is not sufficient space for an R5KMTRM – Termination Board in the K-bus run.
