

ACCUTECH 200260

Antenna Hanger | Wireless Antenna Cable Support Accessory

PRODUCT OVERVIEW

The Accutech 200260 Antenna Hanger is a cable support accessory engineered for securing and organizing coaxial feeder cables on wireless communication infrastructure. Designed for antenna towers, monopoles, and rooftop installations, the hanger maintains proper cable routing while minimizing cable movement caused by wind, vibration, and environmental conditions. Its durable construction helps protect transmission lines from excessive mechanical stress and abrasion, contributing to long-term system reliability in outdoor wireless installations.

ARCHITECTS AND ENGINEERS (A&E) SPECIFICATION

- **Cable Support:**

The contractor shall furnish and install the Accutech 200260 Antenna Hanger to provide secure mechanical support for RF feeder cables installed on wireless communication structures. The hanger shall maintain proper cable spacing and routing while reducing movement that may result in cable wear or signal degradation.

- **Installation:**

The antenna hanger shall be installed on compatible support structures in accordance with manufacturer recommendations. The mounting assembly shall securely retain supported coaxial feeder cables while allowing proper cable management throughout the installation.

- **Environmental Protection:**

The cable support assembly shall be manufactured from corrosion-resistant materials suitable for long-term outdoor exposure and continuous operation in varying environmental conditions.

SYSTEM COMPONENTS

The Accutech 200260 Antenna Hanger consists of the following primary components:

- Antenna hanger body
- Cable retention mechanism
- Structural mounting interface
- Corrosion-resistant support hardware (where applicable)

FEATURES AND BENEFITS

- Provides secure support for coaxial feeder cables.
- Helps maintain organized cable routing on antenna structures.
- Reduces cable movement caused by wind and vibration.
- Minimizes cable abrasion and mechanical stress.
- Corrosion-resistant construction for outdoor environments.
- Supports long-term reliability of wireless communication infrastructure.
- Suitable for tower, pole, and rooftop antenna installations.

PRODUCT SPECIFICATION

Manufacturer

Accutech Healthcare Security Solutions

Product Name Part

Antenna Hanger

Number / SKU

200260

Product Type

Cable Support Accessory

Application

RF Coaxial Feeder Cable Management

Mounting

Tower, Pole, or Structural Mount Fluid-Resistant

Material

Corrosion-Resistant Construction

Installation Environment

Outdoor

Compatible Cable Type

Accutech ResidentGuard LC Series, Custom Zone Networks, and Central Infrastructure Hardware

Chassis Enclosure Type

Surface or Flush-Mount Rugged Architectural Wall Cabinet Assembly

Primary Target Environments

RF Coaxial Feeder Cables

COMPLIANCE AND CERTIFICATION

Compliance Information:

No specific UL, ETL, CSA, FCC, or other third-party compliance or certification information has been published by Accutech for SKU 200260 Antenna Hanger. Users should consult Accutech directly for project-specific compliance requirements.

This layout follows the same format as your 77S016 LS Slotted Tag cutsheet while ensuring the content remains appropriate for the 200260 Antenna Hanger and does not introduce unsupported specifications.
