

13.5 oz bottle | 7.5 oz bottle | 0.75 oz packet

## ABOUT THE PRODUCT

Escape to pristine beaches, warm sun and a jaw-droppingly beautiful tan with Tan Asz U Beach Black Rum Double Shot 400X Bronzer. This DHA-free dark tanning lotion pours on color with a Double Shot 400X bronzing blend, helping create intense yet balanced golden-brown results. A coconut water base conditions skin for a superb tan while Dark Reserve Peptide Infusion, organic algae and black charcoal work together to nourish skin and add depth to your bronze. Max Silicones wrap skin in a smooth, silky feel, finished with a Bahama Breeze fragrance that brings vacation vibes to every session. Designed for indoor tanning beds and does not contain SPF or provide sun protection, so always pair with appropriate protection when exposed to the sun. Paradise rarely comes so easily, so prepare for envy; a coconut water base, potent peptides, and algae extract helps ensure a tan that looks and feels radiant.

Made in USA with Globally Sourced Ingredients

## KEY INGREDIENTS

- Coconut Water
- Peptides
- Spirulina
- Activated Charcoal
- Agave Extract

## FRAGRANCE

Bahama Breeze - tropical fruit, green leaves, apple nectar, red berries, ambrosia, musk, vanilla, peach

## BENEFITS & FEATURES

- Ultra-Dark 400X Bronzer: DHA-free Double Shot 400X bronzing blend delivers intense yet balanced golden-brown color for a deep, vacation-worthy tan
- Coconut Water & Peptides: Coconut water base conditions skin for a stunning tone while Dark Reserve Peptides infuse your tan with a remarkable depth, radiance and a nourished feel
- Algae Extract & Charcoal: Organic algae and black charcoal help nourish and beautify your bronze while the fluid formula wraps skin in incredible softness for a smooth finish
- Deep golden-brown color with a soft, smooth finish as coconut water, peptides and algae help skin feel conditioned

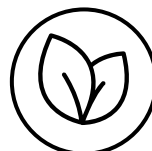

## HOW TO USE

Apply evenly to clean, dry skin before indoor tanning, avoiding sensitive areas; wash hands thoroughly after use.
