LINE STORY

There is more to California than beaches and big cities. Take a journey to the coastal mountains and forests to discover pure color potential. Coast® utilizes nature's own skincare ingredients to produce an undeniable, intense dark tan.

COLOR TECHNOLOGY

Vitatan®: Contains an exclusive combination of vitamins, minerals and antioxidants to accelerate color development. This blend moisturizes and energizes the skin so that it can rapidly build a base tan.

SKINCARE TECHNOLOGY

Alpine Lichen Extract: An algae found in North American forests that contains a dextro-rotary of Usnic Acid, which is a powerful antioxidant known to help soothe skin. Usnic Acid is also known to have deodorizing properties.

White Birch Bark Extract: This extract evens skin tone and energizes for healthier looking skin. It has a high level of antioxidant activity and helps reduce the appearance of fine lines and wrinkles.

Blend of Protein, Ginseng, and Taurine: A specially formulated complex for male skin, to keep skin strong and energetic. Protein helps supply skin with nutrients and aids in attracting moisture for strong, healthy looking skin. Ginseng is packed with minerals, vitamins, and amino acids to promote overall good skin health. Taurine is an amino acid and helps protect skin from environmental aggressors.

CT-Protect™: Moisturizes to help maintain skin's youthful appearance and contains antioxidants which are known to help protect from free radicals.

Oil Free: Formulated oil free, non-greasy and quick absorbing.

AVAILABLE SIZES

16oz Bottle

ADDITIONAL INFORMATION

The Silicone in this formula helps lock in moisture to the skin.
