

# COLLAGENETICS™ PEPTIDE LASH PRO™

Peptide-Powered Lash & Brow Growth Enhancing Serum  
Enriched with peptides, biotin, panthenol, ginseng, and vitamin E

DEVOTED  
CREATIONS®

## FEATURES:

- Lash & Brow Growth Enhancing Serum
- Peptide Blend
- Strengthening Biotin
- Conditioning Agents
- Nutrient-rich Ginseng
- Gentle Sensitive-Skin Approved Formula
- Vitamin E

## BENEFITS:

- Lash & Brow Growth Enhancing Serum – Proven to promote the appearance of longer, thicker, healthier looking lashes.
- 2-in-1 Applicator – Features a precision ball tip for targeted brow application and an integrated spoolie brush to evenly coat and condition lashes from root to tip.
- Peptide Complex – Signals hair follicles to extend their growth phase, reducing breakage and supporting a fuller appearance.
- Biotin – Supports the formation of keratin, reduces breakage and maintains the overall health of hair follicles.
- Multiple Conditioners – Penetrates the hair shaft to lock in moisture, increase elasticity to reduce shedding, and shield lashes from daily wear and environmental stress.
- Ginseng – Works to boost blood flow around the root of hair, feeding follicles with oxygen and nutrients needed to promote growth.
- Vitamin E – Acts as a nourishing antioxidant that moisturizes the hair shaft and protects lash follicles from environmental damage.

## KEY SELLING STATEMENT:

Carefully apply Peptide Lash Pro™ once daily to clean, dry skin along the upper lash line and/or brows. For lashes, apply a thin layer just above the upper lash line using the applicator provided. Do not apply directly into the eye or to the lower lash line. Use sparingly and allow serum to fully dry before applying additional products or lying down. If product gets into eyes, rinse thoroughly with cool water. For best results, use consistently.
