FEATURES:

- Our Most Extreme Concentration of Encapsulated DHA, Cosmetic & Natural Bronzers
- Maximum Performance Multi-Service Optimization
- NAD+/NMN Vitality Complex
- SYN-GLOW® Dark Tanning Peptides
- Color-Correcting Anti-Orange Technology
- Raspberry Ketone Erythulose Compound
- Result Driven Auto Darkening Complex
- Skin Perfecting Copper Peptides
- Luminous Glass Skin Complex
- Firming Exovive™ Lift
- ATP Skin Performance Complex™
- Sculpting Flavoslim™
- Black Goji Berry & Black Currant Antioxidants
- Pore Perfecting pH Balancers
- AI-Powered PeptAlde® 4.0
- Barrier Strengthening Ceramides
- Plumping Hyaluronic Acid
- Ingredient Locking Technology
- Tattoo & Color Fade Protecting
- Neon Nectar Fragrance

BENEFITS:

- Maximum-Intensity Multi-Service DHA, Natural & Cosmetic Bronzers – An unprecedented bronzing complex created to deliver our darkest, most extreme color yet with immediate depth and long-lasting, dramatically bronzed results.
- Encapsulated DHA – A time released ingredient that gradually releases on the skin, providing a sustained and even distribution of color for longer-lasting tanning results.
- Auto Darkening Complex – A proprietary blend that allows tanning results to develop more rapid and even for desired color perfection quickly.
- NAD+/NMN Vitality Complex – An advanced age-defying skin complex that helps revitalize the look of tired, stressed skin while promoting a smoother, firmer and more radiant, youthful-looking complexion.
- SYN-GLOW® – An advanced glow-enhancing peptide that helps amplify skin's natural-looking radiance while supporting a richer, more luminous, sun-kissed appearance and helping maintain the look of beautifully bronzed color.
- Raspberry Ketones – This natural ingredient includes Erythulose, a ketone sugar that interacts with the amino acids in your skin, resulting in a golden-brown hue.
- ATP Skin Performance Complex™ – Supports cellular energy production to help skin perform more efficiently during UV exposure, light therapy, and sunless development for enhanced color performance and visible skin vitality.
- Blue Tansy™ – Flower extract that contains calming and healing properties while using blue hues to counteract orange tones in the skin.
- Copper Peptides – A skin restoring peptide that works as an antioxidant and promotes collagen and elastin repair to help reduce the appearance of scars and stretch marks.
- Glass Skin Complex – Contains a blend of Snow Mushroom, Ceramides and Vegan Squalane to create a smooth, intensely hydrated complexion that appears dewy and luminous.
- Exovive™ Lift – An advanced exosome-based skin technology that helps support a more lifted, defined appearance while working to smooth the look of fine lines and wrinkles.
- Flavoslim™ – Counters the signs of cellulite by improving skin elasticity, while also tightening and toning.
- Goji Berry Extract – Antioxidant-rich fruit extract that protects against environmental stressors, promotes collagen production, reduces the appearance of hyperpigmentation and rebuilds moisture levels in the skin.
- pH Balancers – Helps the skin achieve optimal pH levels, leading to smoother application and more even color development.
- PeptAlde® 4.0 – An AI-designed, plant-derived peptide complex sourced from rice protein that helps calm and condition skin, boost hydration, and support a smoother, firmer, more supple-looking complexion.
- Ceramides – Helps to repair and improve the skin's natural moisture barrier.
- Hyaluronic Acid – A gentle blend of agents that work to hydrate layers of the skin to promote a bouncy, plump look.
- Black Currant Extract – Known for its antioxidant properties to help reduce skin inflammation and restore the skin's natural glow.
- Ingredient Locking Technology – Forms a strong, breathable affect to the skin to allow for deeper penetration and longer lasting results from skincare additives.
- Tattoo & Color Fade Protectors – Protects the color and luster of tattoos and tanning results.

KEY SELLING STATEMENT:

Excessive™ is what happens when more is never enough. This maximum-impact tanning bronzer combines Encapsulated DHA, Raspberry Ketones, Auto-Darkening Technology and an advanced color-boosting peptide to help deliver our deepest, darkest and most over-the-top results yet. Copper Peptides, AI-discovered rice peptides and energy-inspired ingredients help visibly smooth and improve the look of firmness and resilience, while Glass Skin Complex, pH-balancers and ingredient-locking technologies help perfect the appearance of skin and support more even-looking color. Ceramides and Hyaluronic Acid flood moisture-depleted skin with intense hydration, as advanced firming ingredients help refine the look of toned, sculpted skin. The result is outrageously dark color, excessively perfected-looking skin and the most unapologetically overachieving bronzer we've ever created.

PRODUCT ACTIONS:

Tanning Lotion, DHA Bronzer
Bottle Size: 13.5oz Packet Size: .5oz
