- Auto Darkening Complex
- Firming & Lifting
- Pore Refining Acids
- Skin Perfecting GlowPlex™
- Color Balancing Agents
- Sculpting Flavoslim™
- Hair Re-Growth Inhibitors
- pH Balancing Formula
- Champagne Sunset Fragrance

BENEFITS:

- Ultra-Dark DHA Leg Bronzer – An ultra-dark blend of DHA and bronzing technologies delivers sleek, blurring color for a smooth, toned finish.
- pH Balancers – Helps the skin to achieve optimal pH levels for enhanced results.
- Light Activated Photosomes – Used with any light therapy and helps protect the skin's immune system.
- Airbrush & Skin Blurring – Powerful skin conditioning agents help to leave the skin with a bronzed airbrushed and blurred effect.
- Raspberry Ketones – This natural ingredient includes Erythrulose, a ketone sugar that interacts with the amino acids in your skin, resulting in a golden-brown hue.
- Auto Darkening Complex – A proprietary blend that allows tanning results to develop more rapidly and evenly for desired color perfection.
- Exovive™ Lift – An advanced exosome-based skincare technology that helps skin appear more lifted and defined while visibly smoothing the look of fine lines and wrinkles.
- Skin Refining Complex – Helps visibly smooth uneven texture and refine the look of rough, bumpy skin for a softer, more flawless-looking finish.
- GlowPlex™ – A multi-functional skincare active containing Niacinamide and anti-aging peptides to promote glowing skin, blur imperfections and helping to minimize the appearance of dark spots.
- Mel[O]stem™ – The first new plant derived active ingredient that has been clinically found to improve the skin's complexion and signs of aging by targeting sun spots of the skin for a better color balance.
- Flavoslim™ – Counteracts the signs of cellulite by improving skin elasticity, while also tightening and toning.
- Hair Re-Growth Inhibitors – Slows down the rate of hair growth reducing your need to shave as often keeping legs soft and smooth.
- Tattoo & Color Fade Protectors – Protects the color and luster of your tattoos and tanning results.

KEY SELLING STATEMENT:

Consider this your legs' unfair advantage. Extra Credit™ is an ultra-dark DHA leg bronzer created to deliver deep, bold color while helping skin appear smoother, firmer and flawlessly finished from every angle. A high-performance Auto-Darkening Complex works with advanced bronzing technology to amplify the appearance of rich, even-looking color, while skin-perfecting additives help refine the look of rough, bumpy texture. A hair-regrowth minimizing complex helps keep legs looking silky-smooth and touchably polished longer. Lifting and firming additives enhance the look of sleek, sculpted contours, while pH-balancing technology helps optimize the skin's surface for tanning and red light-enhancing beauty sessions.

The result is intensely bronzed, airbrushed-looking legs with a smooth, toned, supermodel finish. Because bare minimum was never going to get you Extra Credit.
