Tanning Benefits

- **Tyrosine:** Amino Acid that helps to increase melanin production to enhance the body's natural tanning process for a more effective tan.

Skin Care Benefits

- **Aloe Vera:** An extract from the leaves of the Aloe Barbadensis plant known to have healing and soothing properties. It also helps condition, rejuvenate and restore moisture balance to the skin.
- **Apricot Seed Oil:** Rich in Oleic Acid and Linoleic Acid, Apricot Seed Oil is a lightweight moisturizing ingredient that helps soften and smooth skin. It is an antioxidant that helps fight free radicals and support skin elasticity.
- **Caffeine:** Helps reduce puffiness and the appearance of fine lines and wrinkles. Also known to energize skin.
- **Ceramides:** Helps to moisturize and strengthen the protective skin barrier and prevent moisture loss from the skin. Hydrated skin can help minimize the appearance of fine lines and wrinkles, which are often more visible when the skin is dry.
- **Hyaluronic Acid:** Good water-binding agent helps provide defense against water loss in skin. Its anti-aging properties stimulate collagen production and boosts skin elasticity.
- **Pentavitin:** Soothing ingredient that is known for providing deep hydration and improving the skin barrier function. It is gentle for all skin types and leaves skin soft and smooth.
- **Vitamin B5:** Panthenol or Pantothenic Acid is an essential nutrient for healthy skin that is a natural humectant to help hydrate and retain moisture in the skin. It has anti-inflammatory properties to help soothe and calm irritated skin.
- **Vitamin C:** Ascorbic Acid is an antioxidant that helps shield skin from free radicals and helping to stimulate collagen synthesis. It helps brighten, soothe damaged skin, and reduces the appearance of fine line and wrinkles.
- **Vitamin E:** Tocopheryl Acetate is vital for healthy skin. This antioxidant helps protect against sun damage, conditions skin and maintains a natural barrier to prevent moisture loss.
