PRODUCT STORY

Stay home and achieve a vacation glow with JWOWW® Instant Bronzing Lotion. This Color Correcting technology is packed with Caramel, DHA, Blue and Violet Hues to darken results while embracing your natural hues. Ensure your color enhances flawlessly with the pH Balancing Blend. Experience a moisture boost with aid from the Hydration Complex and Moisturizing Blend. Don't forget your daily dose of Vitamin E & Niacinamide your skin craves, courtesy of the Nia-Vitamin Blend, that will improve skin texture and elasticity. Combat free radicals and the signs of aging with the Peptide Complex. Tea Tree Oil in Odor Protection will leave you smelling as fresh as your new tan. The color you long for is on your fingertips with JWOWW® Instant Bronzing Lotion!

"The ultimate Instant Bronzing Lotion is perfect for instant or delayed results with cool violet tones. This formula is bursting with age defying peptides and crafted with the best skincare benefits. Xoxo" – JWOWW Jenni Farley

COLOR TECHNOLOGY

pH Balancing: Glycerin and Panthenol combine to create a naturally even, toned base. This powerful duo optimizes your skin's pH, which can fluctuate due to environmental factors and lifestyle. Glycerin attracts moisture to the skin's surface, alleviating dryness, while Panthenol enhances skin elasticity and smoothness for a flawless look.

Color Correcting: A rich blend of DHA, Caramel and Color Correcting Hues will elevate your tan to the next level. Caramel provides an instant burst of color, while DHA develops a deeper, lasting tan. Blue and Violet Hues work to correct and enhance your natural skin tones for a flawless, vibrant finish.

SKINCARE TECHNOLOGY

Hydration Complex: Aloe, Glycerin and Hyaluronic Acid mingle for top-notch skin hydration. Glycerin helps relieve the feeling of dryness while Aloe aids in reducing the appearance of wrinkles. Hyaluronic Acid draws water to the skin surface, improving the appearance.

Nia-Vitamin Blend: This blend helps to leave your skin texture smooth and bouncy. Vitamin E is known to nourish skin and reduce the appearance of inflammation. Niacinamide (Vitamin B3) promotes skin's smoothness and elasticity.

Peptide Complex: Botaniceutical Cs Peptide can help reduce the appearance of skin aging. Melitane is known to help protect against free radicals. This peptide combination has been known to help the appearance of skin aging.

Moisturizing Blend: A fusion of hydration-rich oils that are destined to leave the skin silky and lightweight.

Odor Protection: Tea Tree Oil is known to help mask the odor of sunless bronzers.

HOW TO USE

After applying the JWOWW® Priming Mist, apply over entire body in circular motions. Wash hands after application. Wait at least 2 hours before bathing to allow for color development. For best results, exfoliate skin prior to sunless tanning.

AVAILABLE SIZES

6oz Tube

ADDITIONAL INFORMATION

Use the JWOWW® Sunless Mitt to apply the JWOWW® Instant Bronzing Lotion along with your daily tan extender for a lasting tan that builds over time!
