PRODUCT STORY

Get a flawless, sun-kissed glow without stepping outside using the JWOWW® Instant Bronzing Mousse. This Color Correcting technology is packed with Caramel, DHA, Blue and Violet Hues to darken results while embracing your natural hues. Experience a moisture boost with aid from the Hydration Complex and Moisturizing Blend. Don't forget your daily dose of Vitamin E & Niacinamide your skin craves, courtesy of the Nia-Vitamin Blend, that will improve skin texture and elasticity. Combat free radicals and the signs of aging with the Peptide Complex. Tea Tree Oil in Odor Protection will leave you smelling as fresh as your new tan. Never miss another tan with JWOWW® Instant Bronzing Mousse!

"More than just a mousse my age defying Instant Bronzing Mousse contains skincare benefits and delayed color! Choosing only the best hues to build and elevate your tan to the next level. Xoxo" – JWOWW Jenni Farley

COLOR TECHNOLOGY

Color Correcting Formula: A rich blend of DHA, Caramel and Color Correcting Hues will elevate your tan to the next level. Caramel provides an instant burst of color, while DHA develops a deeper, lasting tan. Blue and Violet Hues work to correct and enhance your natural skin tones for a flawless, vibrant finish.

SKINCARE TECHNOLOGY

Hydration Complex: Aloe, Glycerin and Hyaluronic Acid mingle for top-notch skin hydration. Glycerin helps relieve the feeling of dryness while Aloe aids in reducing the appearance of fine lines and wrinkles. Hyaluronic Acid draws water to the skin surface, improving the appearance.

Nia-Vitamin Blend: This blend helps to leave your skin texture smooth and bouncy. Vitamin E is known to nourish skin and reduce the appearance of inflammation. Niacinamide (Vitamin B3) promotes skin's smoothness and elasticity.

Peptide Complex: Botaniceutical Cs Peptide can help reduce the appearance of skin aging. Melitane is known to help protect against free radicals. This peptide combination has been known to help the appearance of skin aging.

Odor Protection: Tea Tree Oil is known to help mask the odor of sunless bronzers.

HOW TO USE

After applying the JWOWW® Priming Mist, pump mousse into palm or mitt and apply evenly over entire body in circular motions – use sparingly around knees, elbows and ankles. Allow mousse to dry before dressing and be sure to wash hands after application. Wait at least 1 hour before bathing to allow color to develop and up to 4 hours for even more dramatic results. For best results, exfoliate prior to sunless treatment.

AVAILABLE SIZES

6oz Bottle

ADDITIONAL INFORMATION

Use the JWOWW® Sunless Mitt to apply the JWOWW® Instant Bronzing Mousse for a lasting tan that builds over time!
