LOTION TECHNOLOGIES

HYBRID TECHNOLOGY

- **Hybrid Synergy Complex**
 - **Dual-Tyrosine** blend accelerates initial color development and continues to enhance the depth of your tan with each session
 - **Algotan** is known to help increase melanin production with & without UV exposure
 - **Tri-Peptide Complex** works synergistically with light therapy to improve the appearance of smooth, plump, and toned skin

SKINCARE TECHNOLOGY

- **ALGAKTIV® Exometics™ G – This ingredient has been shown to:**
 - Boost skin's natural resilience and restore smoothness for a visibly refined complexion
 - Improve the appearance of skin firmness by up to 229% and improve the appearance of skin elasticity by up to 311% in 28 days*
 - Support the skin's natural renewal process, creating radiant, soft, and visibly rejuvenated skin
 - Enhance skin's natural luminosity for a healthy glow
 - Visibly reduces the appearance of hyperpigmentation with repeated use, promoting a balanced, even skin tone

* Based on an in-vivo study of 40 subjects applying a cream containing 2% ALGAKTIV® Exometics™ G twice a day.

- **Silicone Serenity Blend**
 - Wraps Skin in a soft-focus, velvety finish while locking in hydration
- **Revitalized Hydration System**
 - **Hyaluronic Acid** hydrates the skin and helps combat trans-epidermal water loss
 - **Niacinamide** is known to help restore moisture loss and visibly even skin tone
 - **Aloe Leaf Extract** helps hydrate and soothe skin
- **Mindful Tattoo Protection**
 - **Green Tea Extract** is rich in antioxidants and helps protect against free radicals and external stressors
 - **Cucumber Extract** helps calm and condition tattooed skin to maintain clarity, brightness, and overall ink vibrancy
