LOTION TECHNOLOGIES

COLOR TECHNOLOGY

Perfect Hybrid Intensifying Technology

- **Palmitoyl Tripeptide-37:** Helps support the appearance of smoother, firmer-looking skin by promoting collagen-supporting activity for an even tan foundation
- **Acetyl Hexapeptide-1:** Helps improve the look of plump, revitalized skin for a more youthful, radiant post-session glow
- **Tyrosine:** Known to help stimulate melanocyte activity to support optimized melanin production and deeper-looking natural color
- **Glycerin:** Helps attract and retain moisture to keep skin hydrated, supporting longer-lasting, more even-looking tan results

SKINCARE TECHNOLOGY

Synergy Blend

- **Saccharomyces Ferment:** Helps support a balanced skin microbiome to promote healthier looking, more resilient skin
- **Coconut Oil:** Helps nourish and condition skin to maintain softness and smoothness for an even-looking glow
- **Safflower Oil:** Helps support the skin's natural barrier function while providing lightweight hydration for radiant-looking skin

Organic Antioxidant Extracts

- This exquisite blend of organic ingredients is known to have excellent antioxidant properties, which help protect skin from external aggressors, for a dewy fresh look
