Foundation quick setup guide

Assembly

Your Zoma foundation is engineered to provide excellent support, making it the perfect companion for your Zoma mattress. This guide will help you assemble your foundation in minutes.

Contents:

- 2x Side rails
- 2x End rails
- 2x Slat packs
- 1x Center support rail for Full & Queen sizes
(2x for King & Cal King, none for Twin & Twin XL)
- 7x Plastic legs for Full & Queen sizes
(8x for King & Cal King, 6x for Twin & Twin XL)

If you need assistance with setup, please visit zomasleep.com/help for contact options.

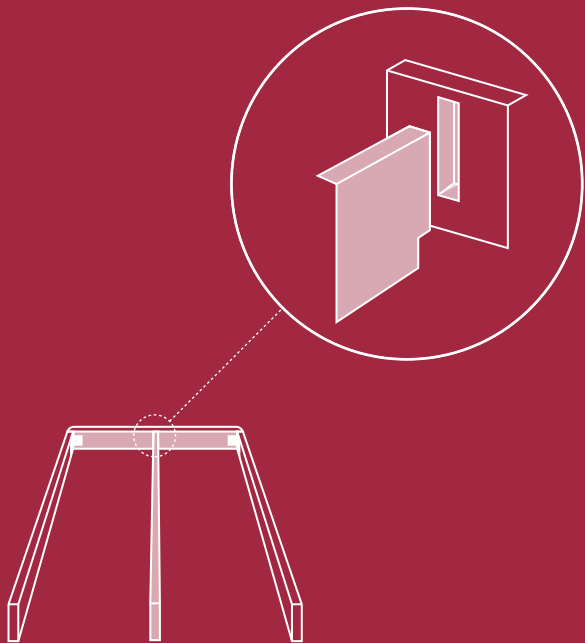

01.

Insert Part A into Part B connecting both side rails to an end rail.

02.

Press the center support rail into the gap at the middle of the end rail.

03.

Once the center support rail is inserted on one end, connect the remaining end rail using the method noted in step 1. You should hear a “click” when the connection is properly made.

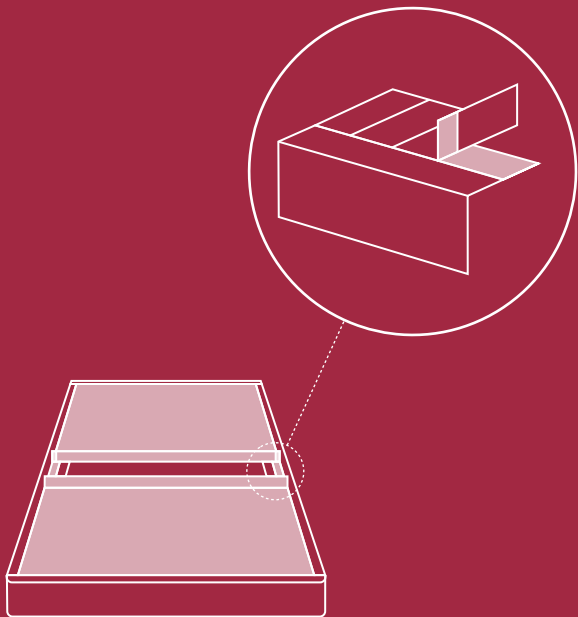

04.

Optional: Flip the foundation bottom side up. Turn and tighten the plastic legs into the nut holes by hand. When finished, turn the foundation back upright.

05.

Unroll the slat pack across the top of the Foundation, seating it on the cleat of the side rails.

06.

Place your Zoma mattress on top and enjoy!
