Customer agrees that ZZPerformance LLC will not be held accountable for ANY results of performance modifications added to your vehicle beyond stock/original factory configuration. ZZPerformance is a performance shop; therefore, the modifications added are decided upon by the owner, and will take responsibility for any outcomes that may occur as a result. The customer understands that problems could arise from modifying my vehicle beyond stock and authorize ZZPerformance LLC to perform the modifications as discussed and assume all responsibilities of the outcomes. The customer understands that the modifications selected may effect or void manufacturer warranty and accept such possibilities and assume sole responsibility for making these decisions. The customer grants ZZPerformance employees permission to operate the vehicle on streets, highways, or elsewhere for the purposes of testing and/or inspection. The customer authorizes dynamometer testing (if requested) and/or service work to be done along with the necessary material, parts and labor. This release also includes, but is not limited to, any claim against ZZPerformance for first aid, medical treatment, or services rendered during participation in the above described testing of the vehicle either on the dynamometer or during road testing.
